

LED Technologies

A new wide choice of 24V LED Strips to be integrated in all our solutions

- Easy and versatile solutions to create lighting systems for every needs
- Cuttable to size
- Practical and easy to use thanks to reel-to-reel connection cables
- No welding required
- High Color Rendering Index
- Einfache und flexible Lösungen, um Beleuchtungssysteme für jeden Bedarf zu bauen
- Zuschneidbar auf Maß
- Praktisch und leicht zu verwenden dank Plug&Play-Verbindungskabel (Reel-to-Reel)
- Keine Lötarbeiten nötigt
- Hoher Farbwiedergabeindex (CRI)

	HE Strip. High efficiency LED strips More light output, less energy input.	COB. Chip on Board LED strips Continuos light effect with deceiving aesthetic.	Lumitough®. LED strips High robust quality, long lifetime, Consistent color. Ideal for small fragile spaces, high temperatures, humidity, rough handling during production process.	Free cut LED strips High-performance LED strip without modules. Profile, cover, and strip can be cut together at any point, with no pitch constraints and no loss of functionality.
